[E-mail: dooley@marmed.com](mailto:dooley@marmed.com)

UK MSN 1768 REGULATIONS SCALE A: WORLDWIDE TRADING.

Scheme Procedure –

- 1) A full Inventory check of the medical locker and poison chest should be performed 2-4 weeks before renewal of the six/twelve monthly medical certificate.
- 2) Fill in the spreadsheet, listing all quantities of medicines on board, together with the relevant expiry dates (see notes).
Please check all medicines, equipment and first aid kits. Please note it is not necessary to fill in the “required” column but please tell us the number of crew on board.
The spreadsheets can be added to or amended if required
- 3) The completed inventory spread sheets should be sent to **Marine Medical International** or vessels owner/manager (which ever is applicable) by either e-mail, fax or post .
- 4) Please include a purchase order number (when applicable) and indicate the expiry date of the current medical certificate.
- 5) If vessels require replacement or additional stock at any time, orders can be placed directly with us - though all requirements for a six month duration should be obtained, whenever the once/twice yearly replenishment orders.

Notes -

- Please check expiry dates on all sterile dressings (marked on spreadsheets).
All sterile dressings without an expiry date should be replaced if they look old or damaged.
- The spreadsheets also contain a selection of additional medicines, not included in the medical scales, which are commonly requested by vessels. If allowed by vessels owner/manager/captain vessel can order any other additional medical stores required. Usage of all "additional extras" will monitored.
